CSC

Ken Linscott

Ken Linscott is the product director for Domain and Security services at **CSC**.

Responsible for the development and marketing of CSC's security solutions, his 20 years' experience in domain names, DNS, and digital certificates—working with some of the world's most recognized brands—is integral to the development of CSC's unique and industry leading approach.

Ken is a regular contributor to CSC's Digital Brand Services blog and speaks on managing, optimizing, and keeping digital assets secure at conferences, summits, and roundtables across Europe.

He holds a BS degree in economics from Loughborough University.
